Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1 - 28, drawn to an imaging system with, among others, a light control system that controls an amount of light from the taking lens that reaches the 3D camera independently of an amount of light from the taking lens that reaches the imaging camera.

Group 2, claim(s) 29 - 34, drawn to a gated 3D camera with, among others, at least 2 photosurfaces.

The application lacks unity within the meaning of Rule 13 PCT for the following reasons:

The application contains the following independent claims for devices and methods:

- a) Claim 1, relating to an imaging system with, among others, a light control system that controls an amount of light from the taking lens that reaches the 3D camera and the imaging camera independently of each other.

b) Claim 29, relating to a gated 3D camera with, among others, at least 2 photosurfaces.

The only matter common to the two independent claims is:

A taking lens system that collects light from a scene being imaged with the optical imaging system;

Systems with these features are well known, see for example D1.

The matter common to all the independent claims is thus not novel and does therefore not constitute a general inventive concept (see PCT Guidelines, III, 7.6).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Behrooz Senfi** whose telephone number is **(571) 272-7339**.
